

The Rough Riders

by Theodore Roosevelt

Theodore Roosevelt's personal account of The Rough Riders, the name affectionately bestowed on the 1st U. S. Volunteer Cavalry, one of three such regiments raised in 1898 for the Spanish-American War in Cuba, and the only one to see action. Roosevelt, serving first as Lt. Colonel and then 2nd in command, gives a rousing depiction of the men and horses, equipment, talent, their battle strategies, losses, and victories. He says: "There could be no better material for soldiers than . . . these grim hunters of the mountains, these wild rough riders of the plains . . . accustomed to handling wild and savage horses . . . to following the chase with the rifle . . . hardened to life in the open, and to shifting for themselves . . . My men were children of the dragon's blood, and if they had no outland foe to fight and no outlet for their vigorous and daring energy, there was always the chance of their fighting one another: but the great majority, if given the chance to do hard or dangerous work, availed themselves of it with the utmost eagerness."
